Subject: Re: Incident Reponse Walk through

Merle & Michael,

Following up on this, one of the areas in which we are actively looking to grow is in the "Post-Incident Activity" area and specifically working to understand what vectors led to a compromise and what KSU could have done better to close those vectors (or minimally detected earlier). For the Center for Election Systems incident, we adopted a format which GaTech shared to conduct document incident "After Action Reports". The document purposely vague in regards to the incident, but is highly tactical in prescribing mitigation steps to prevent future incidents.

Can I ask you to review and provide your feedback, as I value your input and all mitigation is going to be conducted in a secure and collaborative manner.

Thank you,
Stephen

Subject: Incident Reponse Walk through

Stephen - We are looking for assistance in designing and conducting an incident response exercise walk through for several difference scenarios here at the Center. Do you have a template or other guidelines that can help us organize the exercise? We would like to include our staff, UITs, and SOS IT staff in the exercise.

Thanks in advance,

Merle
